The following is an examiner's statement of reasons for allowance: In addition to the remarks of record, the cited prior art fails to teach a label chamber with a removable end cap that, when attached, provides a fluid tight space that is sufficiently transparent for the optically readable code to be read through the cap. Further, independent claim 37(renumbered as claim 27) and all of the other claims again define over the art of record because there is teaching or suggestion of using an optically transparent material for creating a fluid tight chamber containing the optically readable code.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
